

# Data Collection

- Data collected from all sites (mainly via manual collection)
- Poor data collection processes in place across many of our Trusts (in-pt activity not recorded by all Trusts and split between NW and non-NW London not available)
- Robust electronic data available for all coded activity: Angiography, Angioplasty, CABG

# Assumptions/Data Limitations

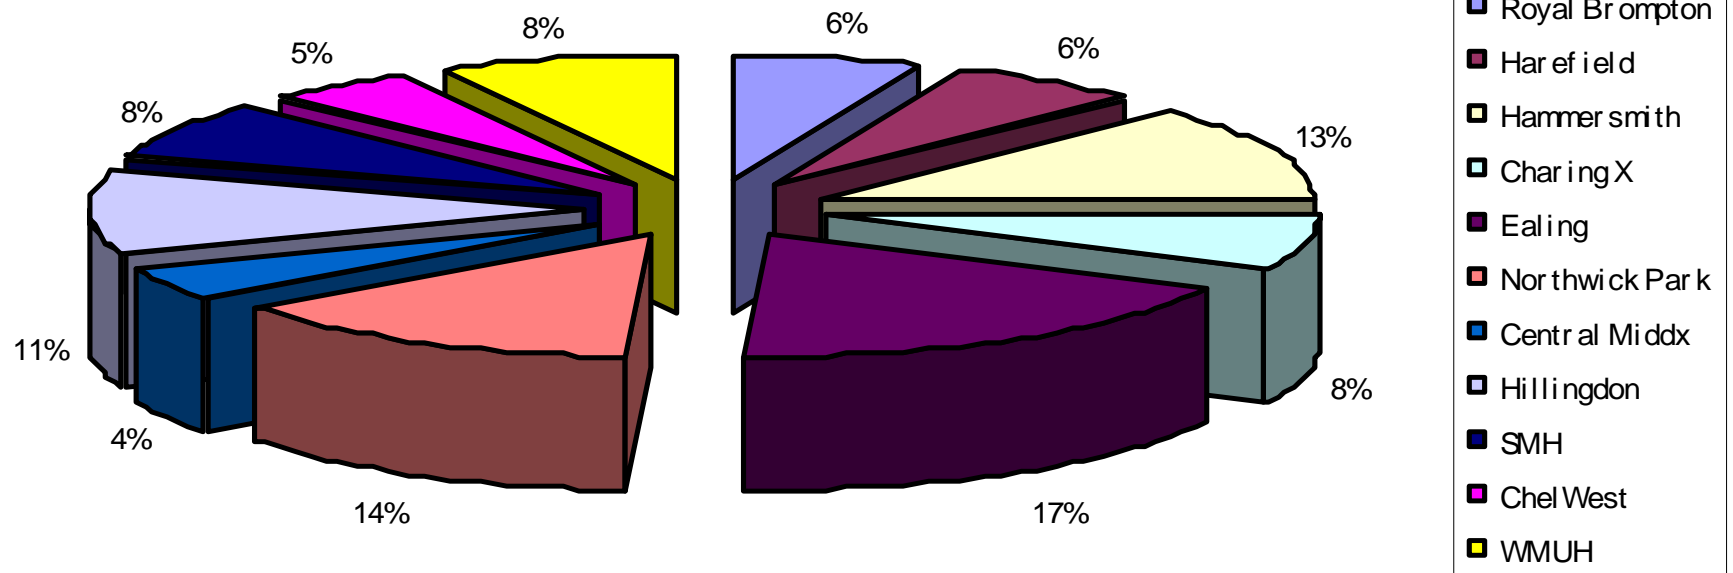

- ETT
  - Not all providers record in-patient ETT (total recorded is therefore likely to be underestimated)
  - Unable to split by NW and non-NW London.  
Assumption made that 100% activity is NW London as this test is available locally in most centres
- Stress Echo
  - Unable to split by NW and non-NW London.  
Assumption made that 100% activity is NW London as this test is available locally in most centres

- Research
  - All data provided for Stress, Nuclear & possibly Cardiac MRI is likely to include some research activity
- ? Proceeds
  - Patients booked as ? Proceed who have PCI are only recorded as PCI activity, (as the highest cost procedure). This is likely to lead to an underestimation of actual Angiography numbers
- Private
  - Private activity is not counted

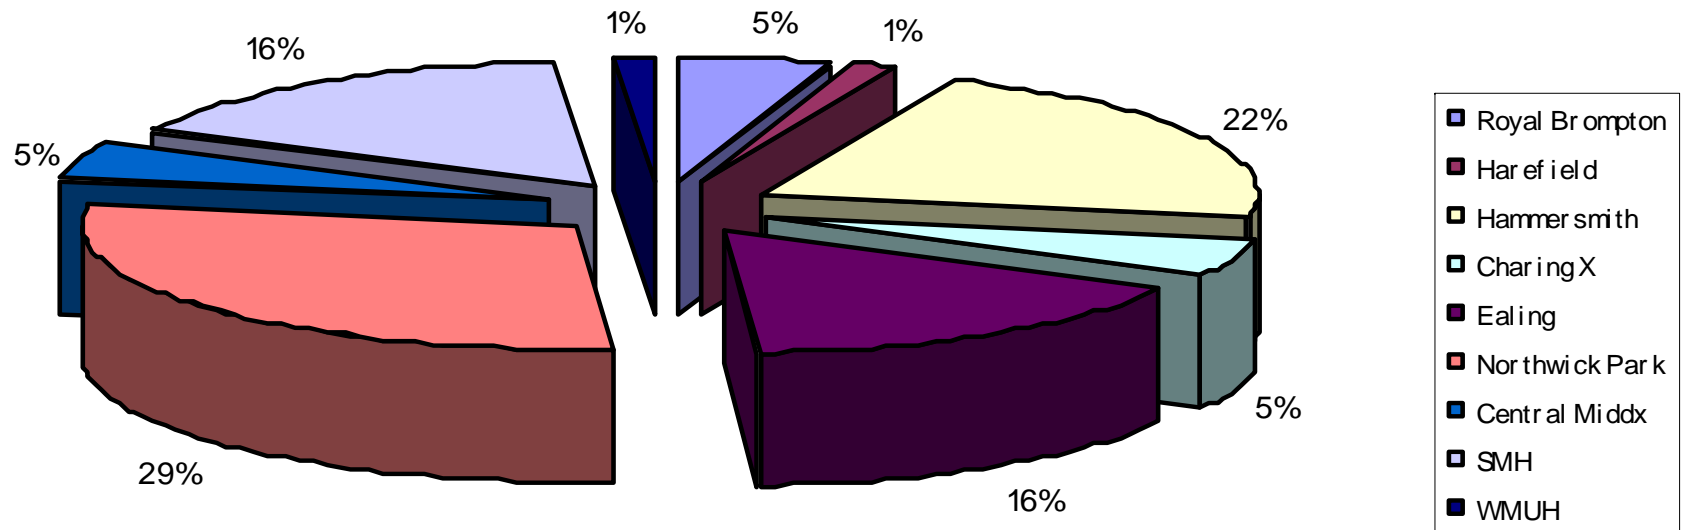

## Total ETT activity by provider - 2005-6

n=12041

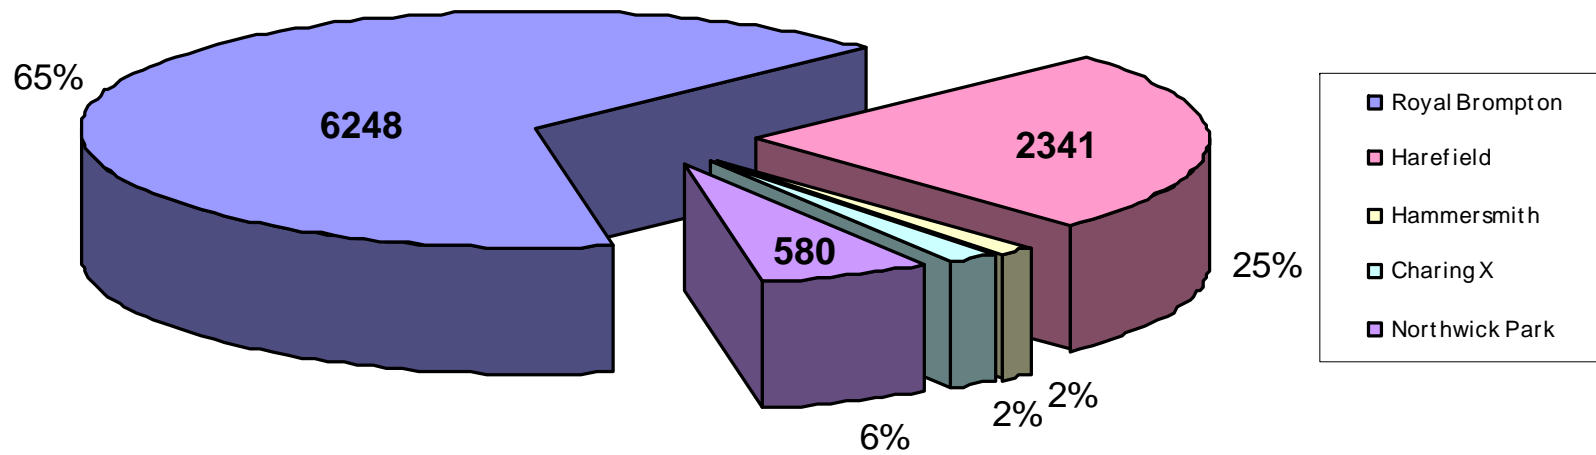

## Total Stress Echo activity by provider - 2005-6

n=1961

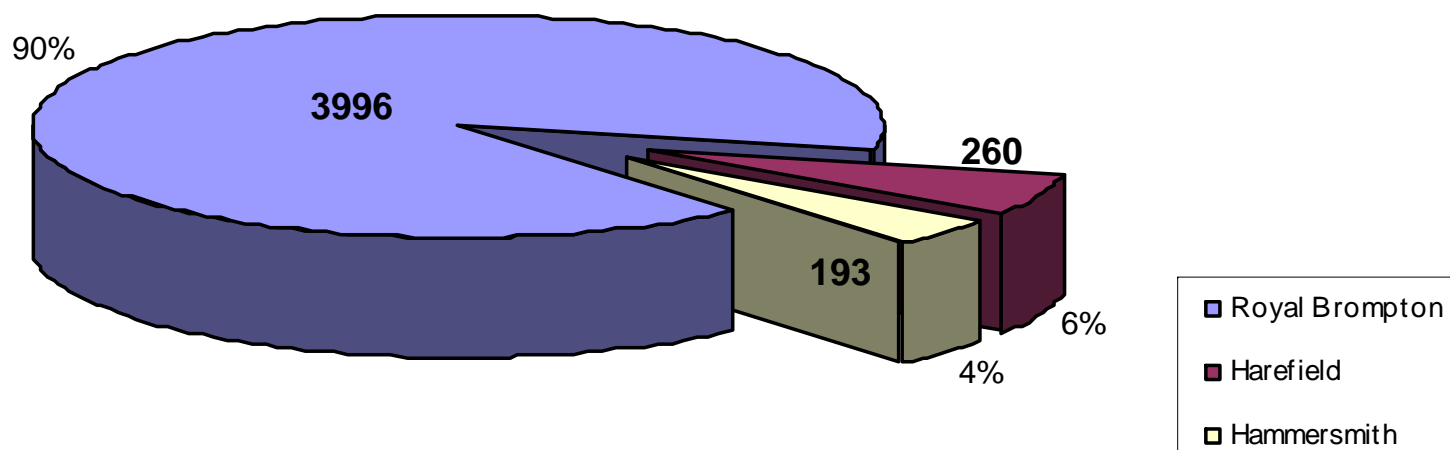

### Total Nuclear Imaging activity by provider 2005-6

n=9494

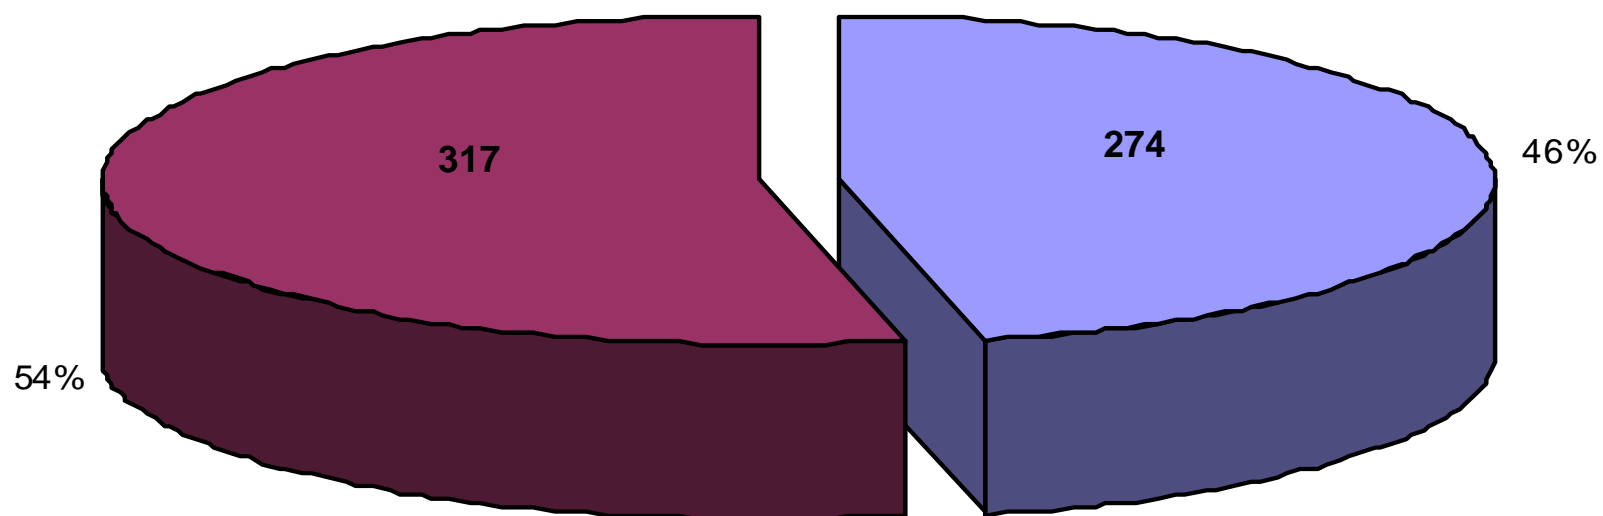

### Total Cardiac MRI activity by provider - 2005-6

n=4449

### Total Cardiac CT Scanning activity by provider 2005-6

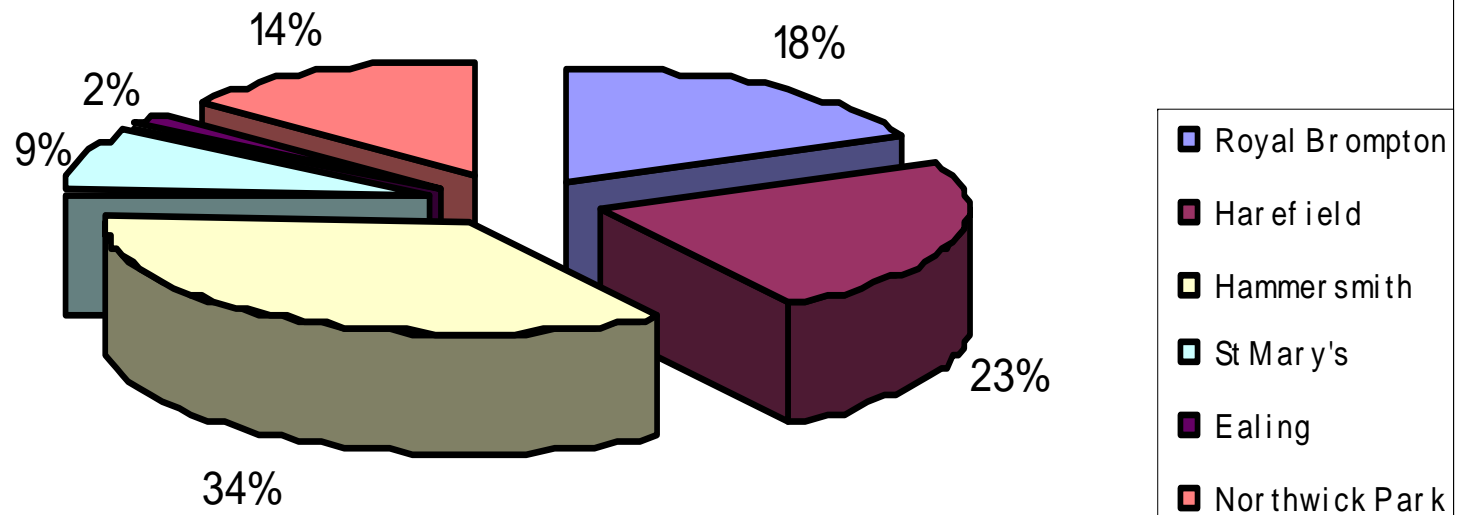

n=591

- Royal Brompton
- Harefield

## Total Angiography activity by provider-2005-6

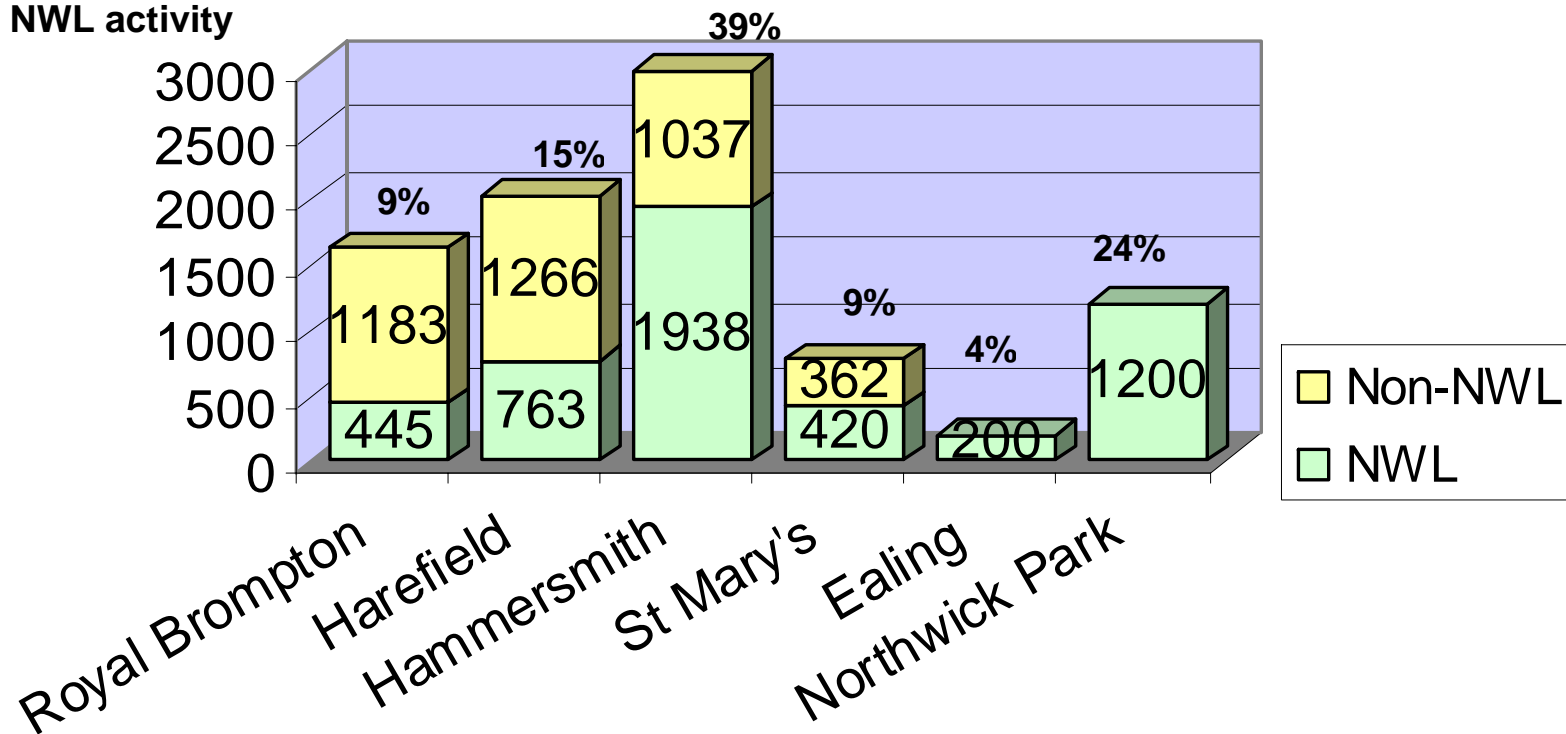

n=8814

## Total Angiography activity split by NW and non-NW London flows - 2005-6

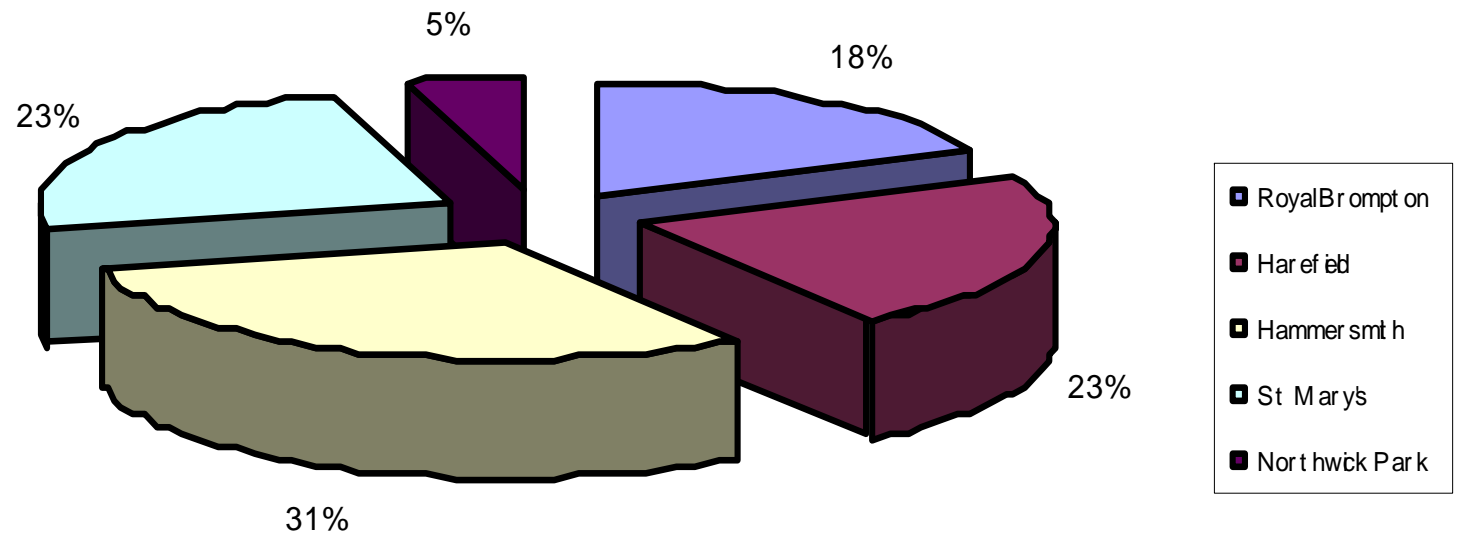

Note: % apply to NWL activity

n=8814

## Total Angioplasty activity by provider 2005-6

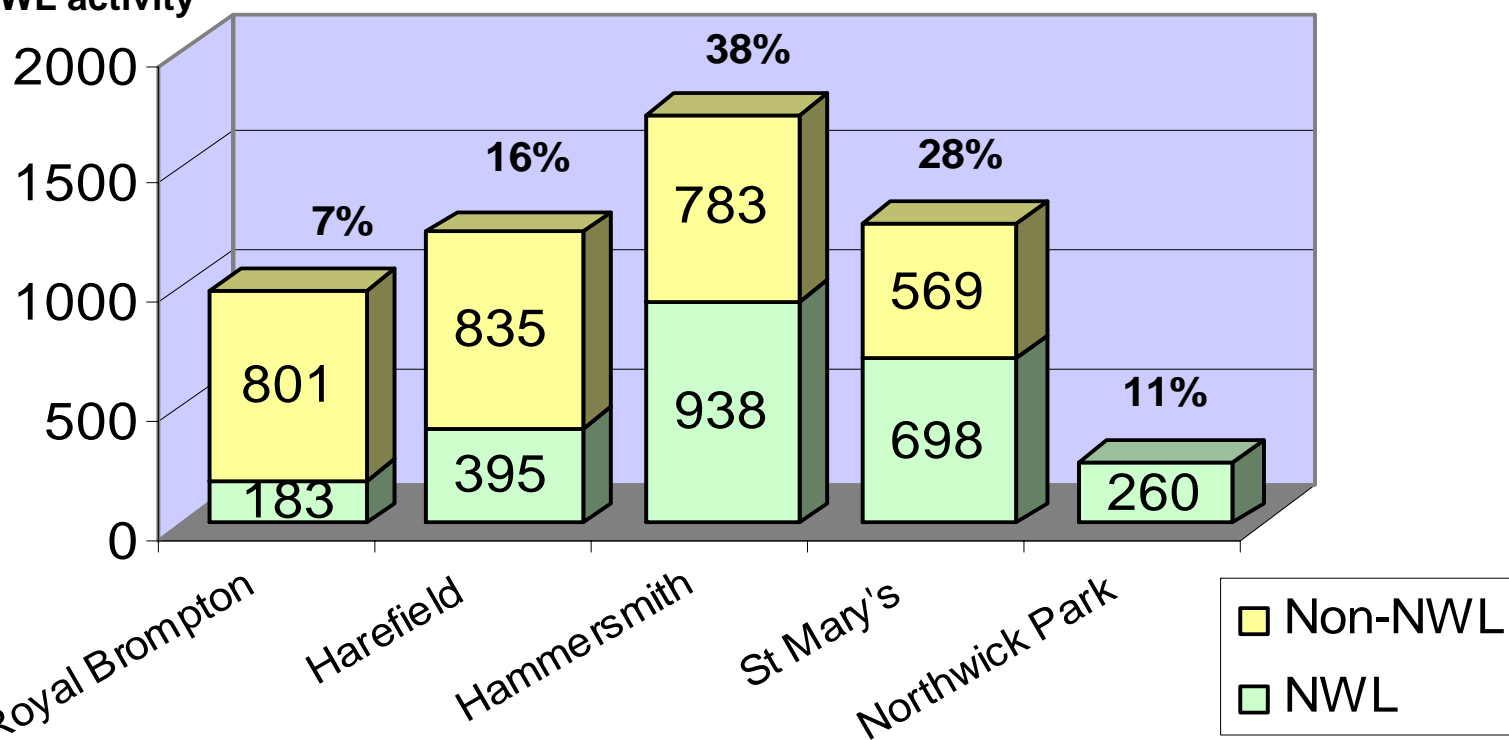

n=5462

## Total Angioplasty activity split by NW and non-NW London flows - 2005-6

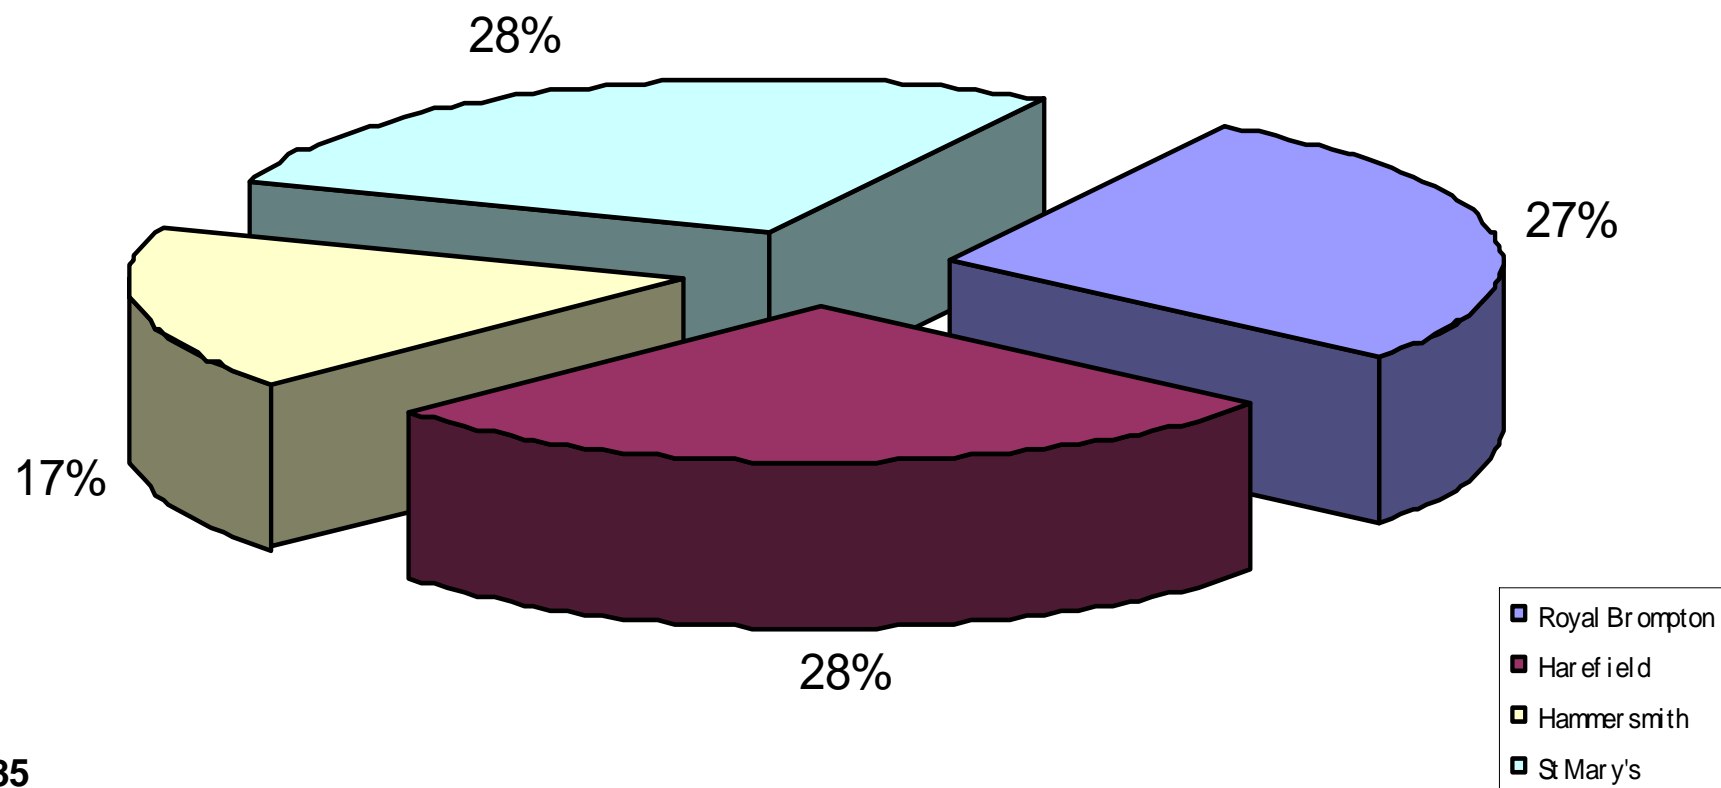

Note: % apply to NWL activity

n=5462

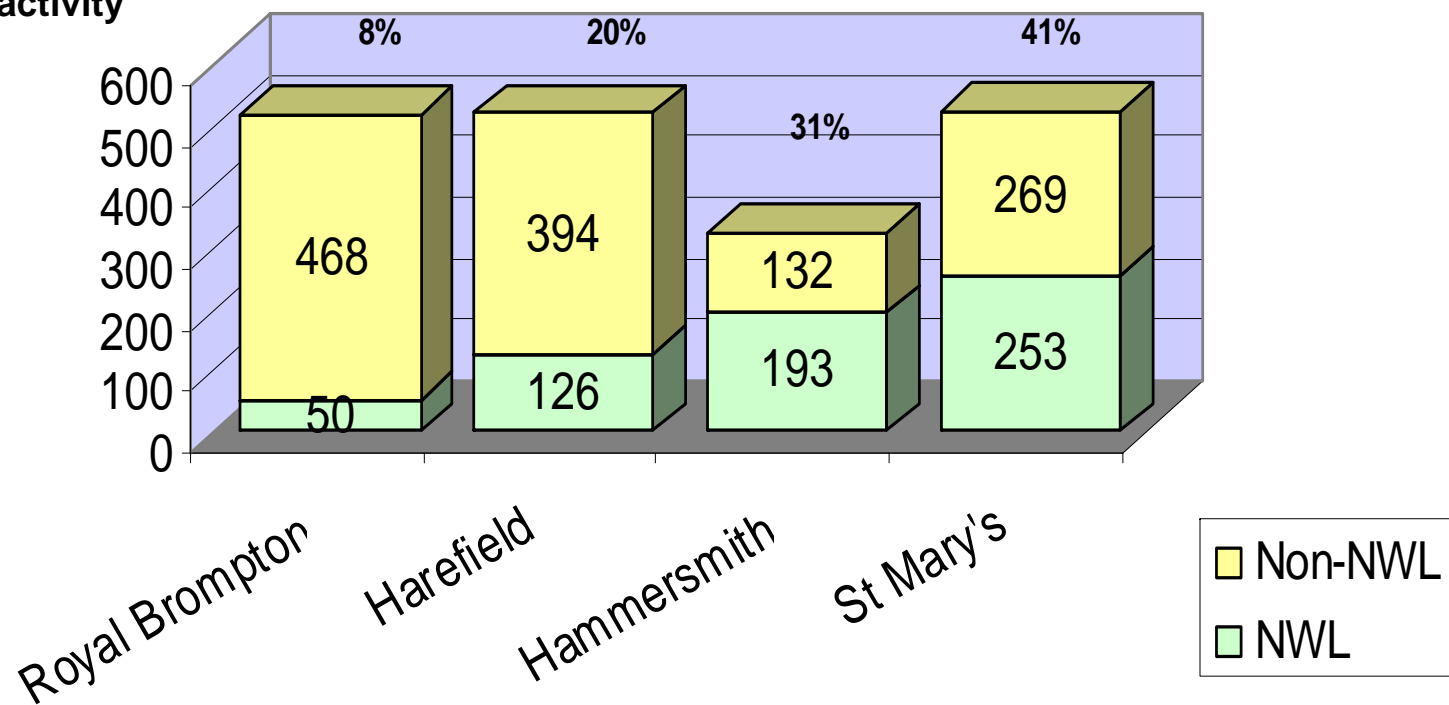

## Total CABG activity by provider - 2005-6

### Total CABG activity split by NW and non-NW London flows 2005-6

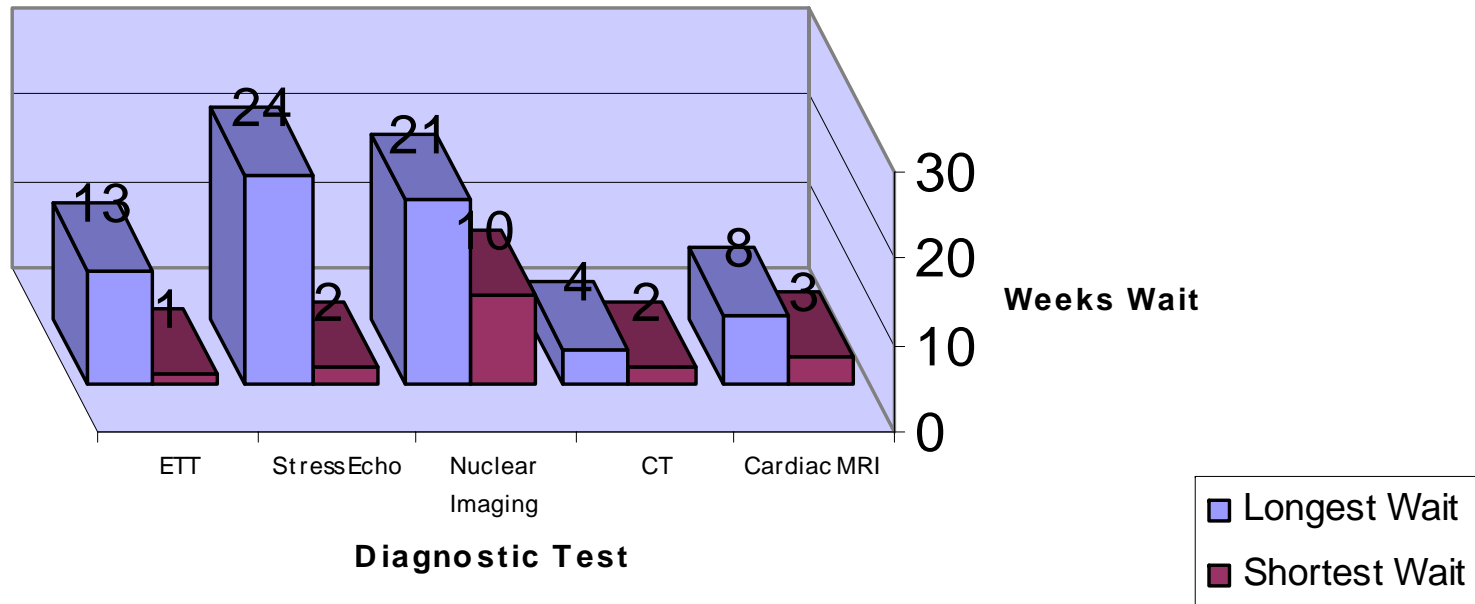

Note: % apply to NWL activity

n=1885

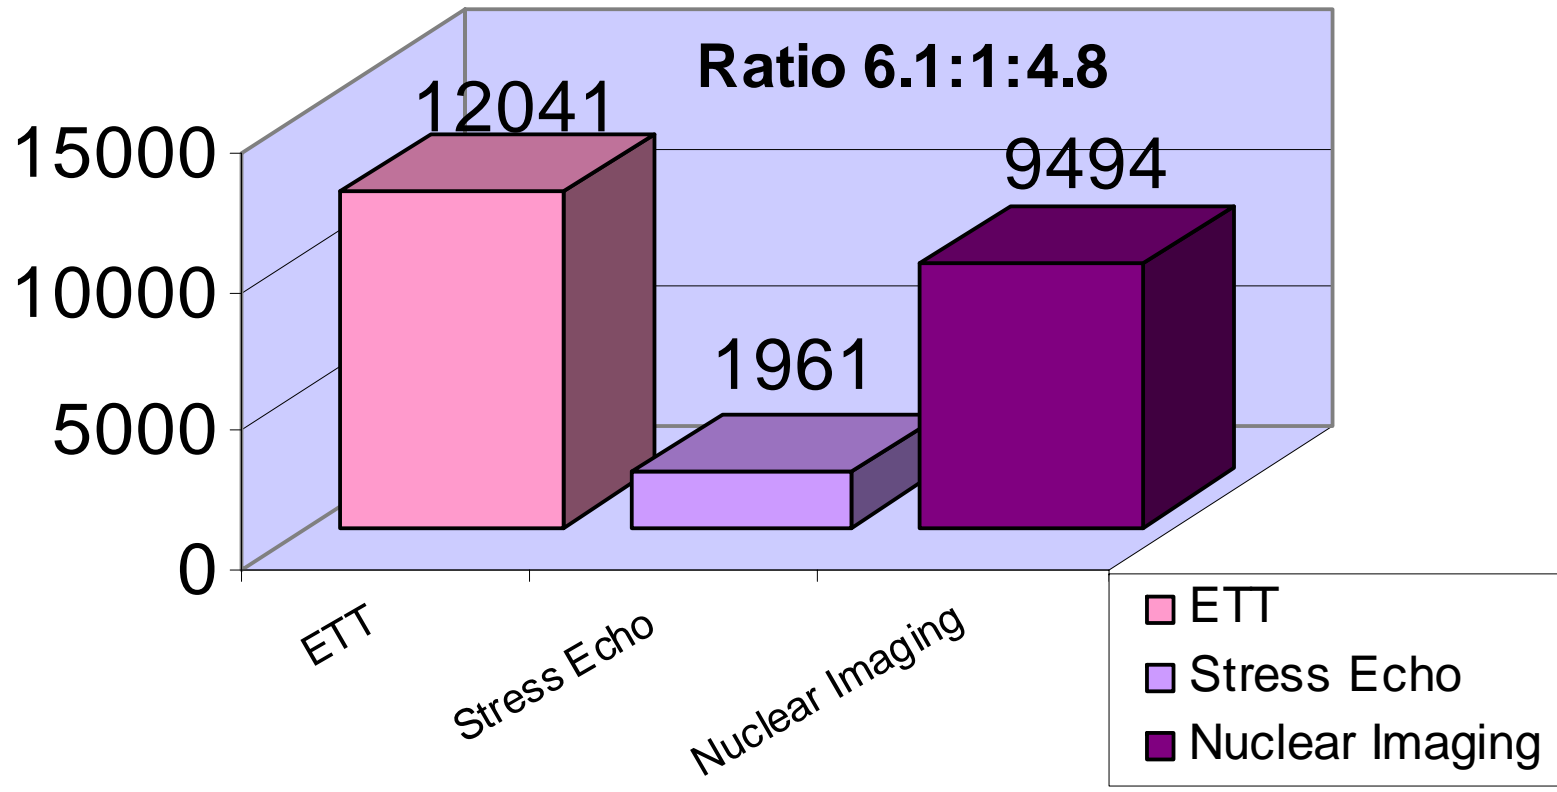

### NW London Diagnostic Waiting Times (in weeks - snapshot May 06)

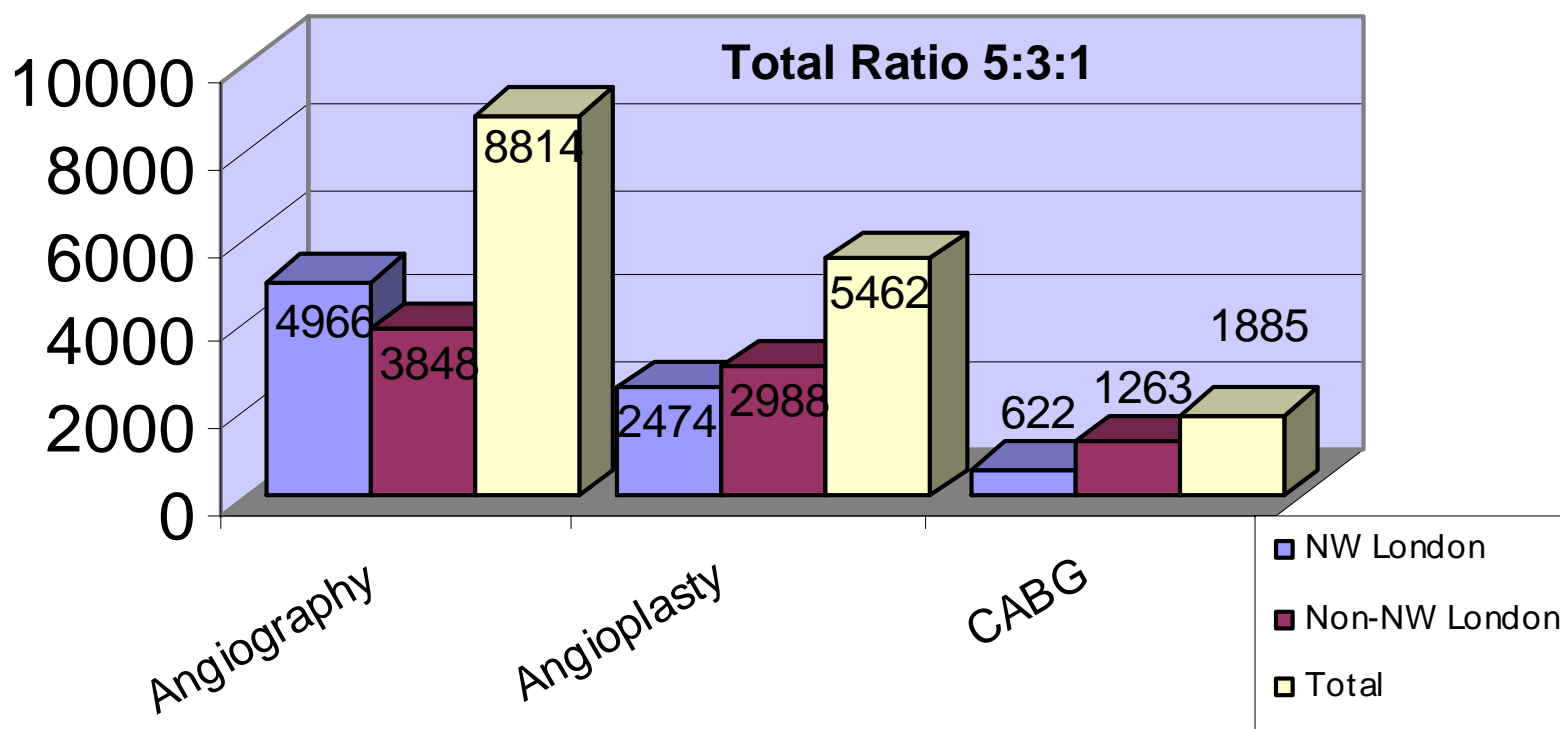

### Total ETT activity to Stress Functional activity - 2005-6

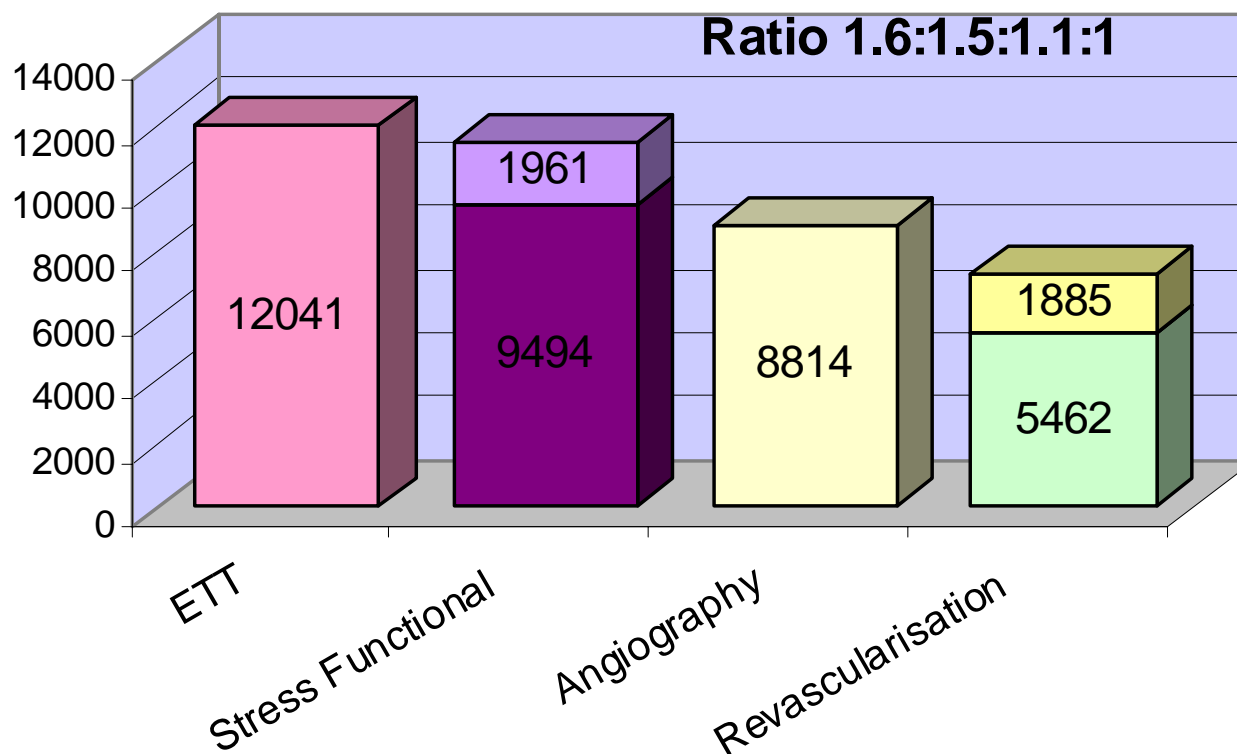

### Total Angiography activity split by NW and non-NW London to Revascularisation - 2005-6

### Ratio of total activity - 2005-6

## Ratio of total NW London activity - 2005-6
