Heart to Heart Conference & National Lifesaver Defibrillator Awards

Education and information
to help save lives

Royal College of Pathologists

2 Carlton House Terrace, London SW1Y 5AF

Saturday, 23rd October, 2010

Endorsed by the College of Paramedics

This Conference is accredited by the
Royal College of Nursing Accreditation Unit

**Statement by Dr Jerry Nolan,
Vice-Chairman of the Resuscitation Council (UK)**

After cardiac arrest, the chance of survival diminishes rapidly if attempted defibrillation is delayed. Wide availability of automated external defibrillators (AEDs) reduces the time to defibrillation and increases survival.

Heart to Heart: Education and information to help save lives

Royal College of Pathologists, 2 Carlton House Terrace, London SW1Y 5AF

Royal College of Pathologists

The Royal College of Pathologists, 2 Carlton House Terrace is quiet and the College's elevation, set back from The Mall provides magnificent views across St James's Park. Its prestigious location and stylish interior is very impressive facing down Carlton Gardens towards Pall Mall. Access by public transport is unrivalled with the College being within walking distance of Piccadilly Circus, Charing Cross, St James Park, Green Park and Victoria train stations.

Honoured Guest

Dr Jasmeet Soar is Chair of the Resuscitation Council (UK). He works as a consultant in anaesthesia and intensive care medicine at North Bristol NHS Trust.

Dr Soar is an editor of the journal *Resuscitation*. He has a major role in developing guidelines and training for cardiopulmonary resuscitation. One of his aims is to make CPR skills as simple and effective as possible so they are easy to learn, remember and do. This will help ensure victims of cardiac arrest have the best possible chance of survival.

Conference and Exhibition

- Are you a nurse, doctor, first aid trainer, first responder, member of the emergency services or other personnel who would like to know more about Inherited Cardiac Conditions and SADS?
- Would you like to hear more about how conditions are identified and managed?
- Are you interested in learning more about resuscitation from the Chair of the Resuscitation Council UK?
- Are you in a family living with a cardiac condition who would like to meet others in similar circumstances?
- Are you interested in updates and new developments to help families affected by inherited cardiac conditions or SADS?
- Would you like to know more about the Coroners Officer and the new Coroner's reform?
- Would you like to meet like-minded individuals and make contacts and network?
- If the answer is 'Yes' to any of the above, register for the Heart to Heart Conference.

Awards Dinner

The speedy use of a defibrillator along with CPR can save a life. The cardiac charity SADS UK holds the annual National Defibrillator Lifesaver Awards to award people who have taken lifesaving action.

Saturday, 23rd October 2010

Conference to held in Fleming Room

TIME	Conference Agenda	SPEAKER
09.45	Registration and start of Exhibition - <i>Coffee</i>	
10.30	A two tier approach to saving lives in the community – heart monitors and defibrillators	Anne Jolly, BACP Accr. Cllr Founder of SADS UK
10.45	The patient perspective of living with a cardiac condition in the family	Dr Isabel Acquarone
11.00	Heart Monitoring in the community	Marcus Barkham, Spacelabs Healthcare
11.30	SADS in the community, a patients story	Linda Boden
11.45	Update on channelopathies	Dr Jan Till, Consultant Paediatric Electrophysiologist, Royal Brompton Hospital
12.15	The role of the cardiac physiologist	Sue Jones, Cardiac Physiologist, St Georges Hospital
12.45	<i>Lunch Break</i>	
14.00	UK Cardiac Pathology Network and SADS Database	Dr Perry Elliott, Specialist Cardiologist, The Heart Hospital

17.00	The work of the Inherited Arrhythmia Clinic	Dr Dominic Abrams, Consultant Cardiologist, Barts and the London
17.30	Important news/updates in resuscitation	Dr Jasmeet Soar, Chairman of Resuscitation Council (UK)
18.00	Conference finishes	

NATIONAL DEFIBRILLATOR LIFESAVER AWARDS FOLLOWS BY INVITATION ONLY

SADS UK

SADS UK works to save lives. The cardiac charity raises awareness about cardiac conditions and 'The Warning Signs' that may indicate a person has a cardiac abnormality and needs treatment. The charity provides cardiac equipment to improve monitoring facilities both in acute hospitals and the community.

The first sign of a cardiac condition may be when a person suffers a cardiac arrest. To help safeguard against sudden death SADS UK donates Automated External Defibrillators (AEDs) to organisations such as:

Schools

Workplaces

Sports Clubs

Leisure Centres

Sports Complexes

Shopping Centres
